Product

Product Details

Engine (PN 87492084SW)

Include :
Starter Motor
Alternator
Turbo Charger
Fuel Injection Pump

Model

TT55

Engine (PN 5096708SW)

Include :
Starter Motor
Alternator
Turbo Charger
Fuel Injection Pump

TD90

Transmission (PN 84483735SW)

Rear Axle (PN 90416791SW)

TT4.90

Engine (PN. 84262722SW)

Include:
Starter
Alternator
Fuel Injection Pump

TT3.50

BENEFITS

1. Warranty 6months or 1000HM
2. Competitive price
3. Shorter unit downtime
4. Provides optimal performance
5. Pass Case New Holland Tractor standards
6. Handover at nearest PT Altrak1978 workshop

Terms and Condition

1. No missing component
2. Pass PT Altrak 1978 test and inspection
3. 5C components must be in good condition

valid until December 2026

A-STEER

AUTO STEERING & LAND LEVELING

2026

AG500+

Auto Steering System

A-STEER
AL78 POWER

Parameter

AG500 auto steering system integrates high-precision GNSS technology and IMU sensors to achieve accurate tractor control and navigation. With notable advantages in efficiency, energy conservation, precision, safety, and affordability, AG500 significantly enhances agricultural machinery operations. It improves efficiency, reduces labor costs, and provides farmers with a more convenient, efficient, and intelligent agricultural machinery experience. It is versatile, applicable to tasks such as sowing, cultivating, trenching, ridging, pesticide spraying, transplanting, land consolidation, harvesting, and more.

Smart GNSS Receiver

Built-in GNSS board,IMU sensor, Radio,Antenna

Physical Dimension:179×179×69mm
Weight: 1.1Kg Protection Level: IP67
Supply Voltage: DC 9~36V
Signal: GPS L1/L2, BDS B1/B2, GLONASS L1/L2,
Galileo E1/E5a/E5b, QZSS L1/L2/L5
Data Format: NMEA 0183,Unicre

Control Tablet

System

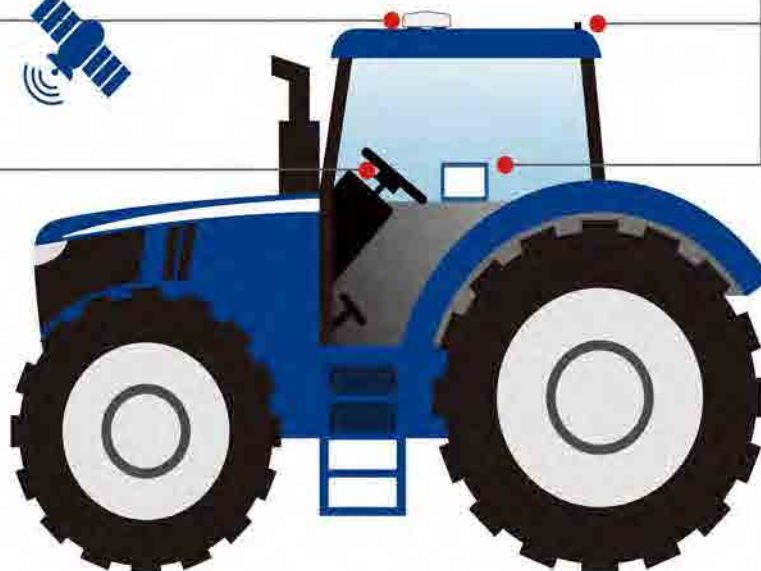

Operating System: Android 9.0
LCD: 10.1" Capacitive Touch Screen

Communication

Wi-Fi: 2.4GHz IEEE 802.11 b/g/n Bluetooth: V4.0
Serial Port: RS232 x2, RS485 x1
CAN Port: CANx2 (J1939, CANOpen, ISO15765)

Physical

Dustproof & Waterproof: IP-65
Dimension: 281mmx181mmx42mm Weight: 1.5kg

High-Torque Motor Wheel

Motor Performance

Rated torque: 10 N·m
Supply voltage: 8V~16V DC

Physical Dimension:

φ 187x100.2mm (Motor)
φ 410x32mm (steering wheel)

Weight: 6.35 kg (motor only)
Material: Aluminum alloy

Camera

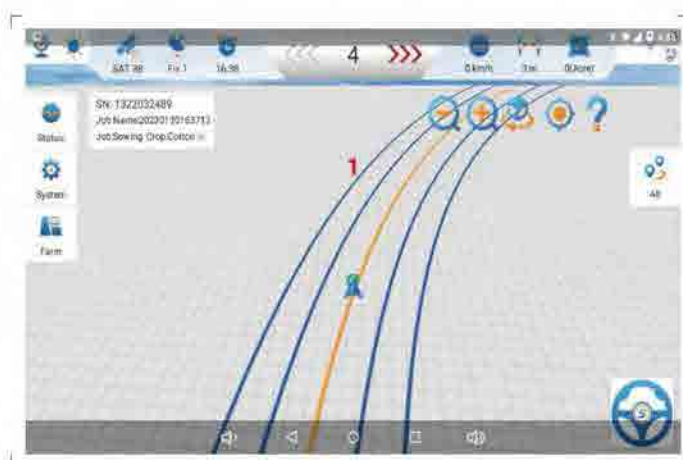

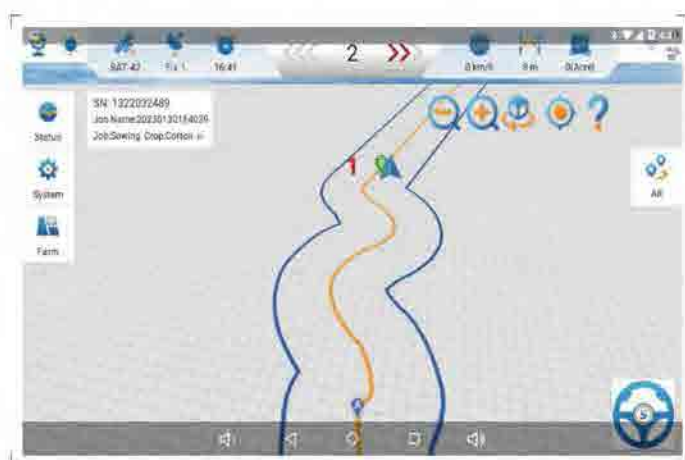

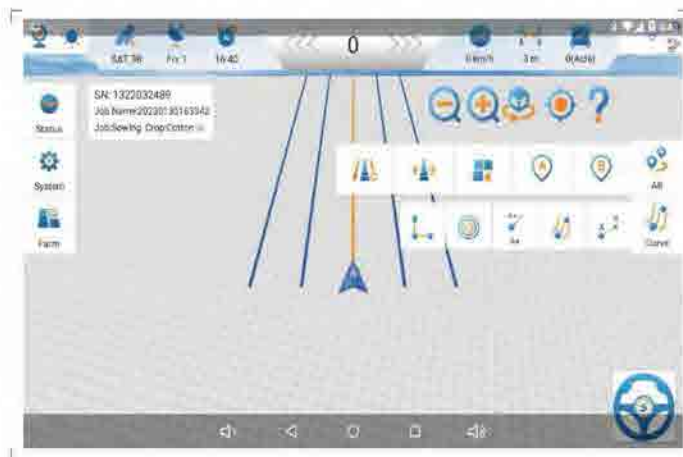

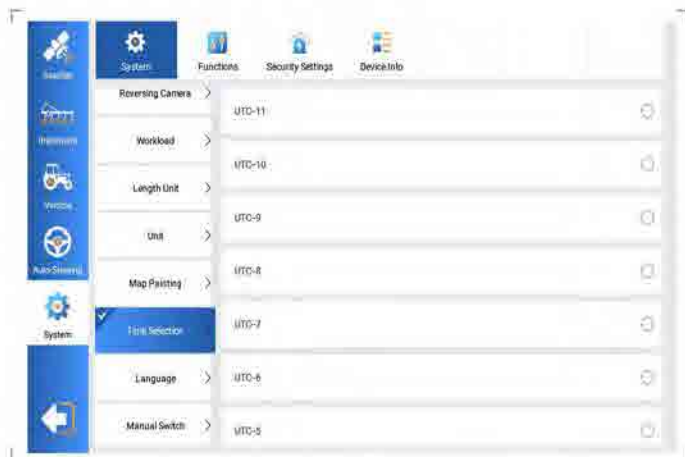

Pixel: 720P
Support reversing image

A-Touch

Multifunctional Altrac
GPS module

Software

Applications

Plowing

Ridging

Seeding

Harvesting

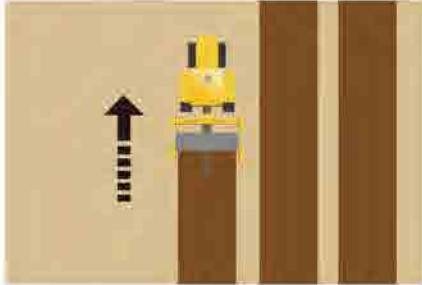

Spraying

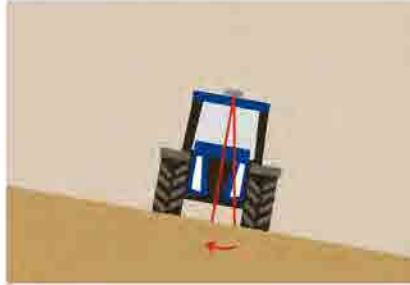

Features

Hands free, work day and night, reduce fatigue Operations, keep your tractor on the right path, improve Efficiency.

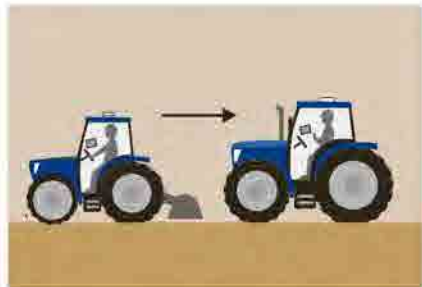

Terrain Compensation on land with slope, reduced overlap area, amount of Fertilizer.

NMEA data transfer

Support route import from other brands

High precision GNSS receiver, $\pm 2.5\text{cm}$ driving accuracy, improve work accuracy.

Support single point, guidance accuracy 30 cm

ISOBUS (optional)

ISOBUS compatibility enables the use of implements such as spreaders, seeders, and fertilizers that are also ISOBUS compatible.

U-turn

Enables the tractor to turn around automatically at the end of each row and proceed to the next one.

Section Control (optional)

Automatic close the sections which are in an already fertilized area, avoid fertilization overlapping, avoid wasting or damaging to the crop.

Compatible

Compatible with more than 95% of tractor brands, harvesters, rice trans planters, seeders, and other agricultural implements.

AG2000-3

Land Leveling System and Scraper

AG2000-3 GNSS Land Leveling System

Single Control+ dual slope

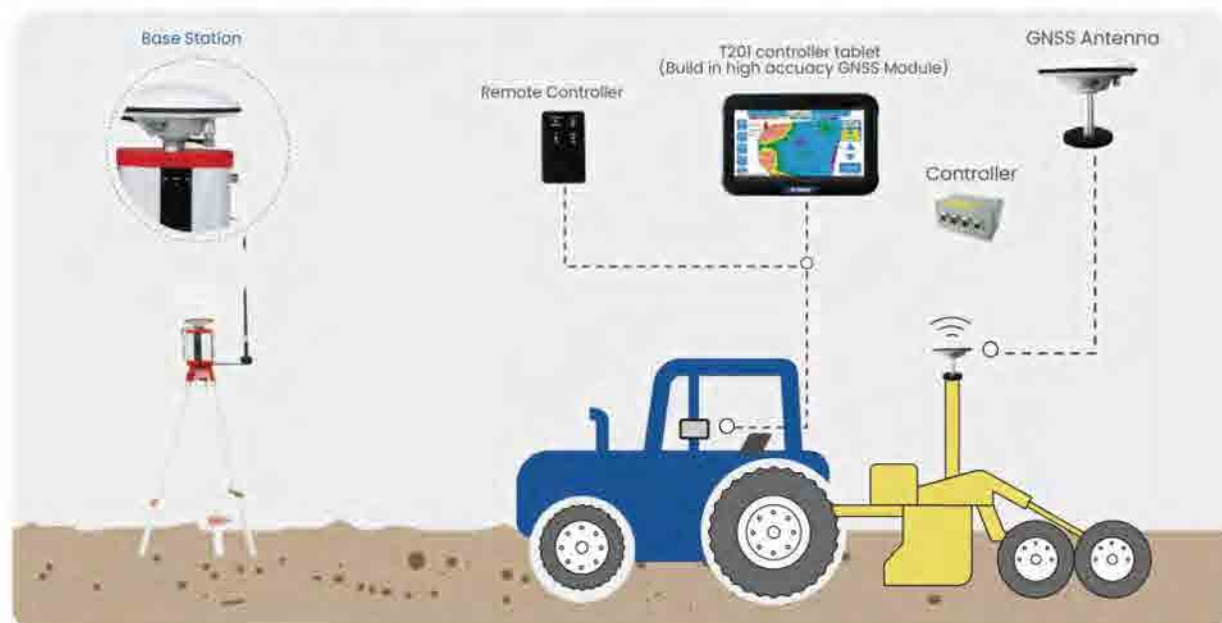

Dual Control (optional)

Description

The high-precision and high-performance GNSS Land Leveling system is independently developed by SunNav. Widely used in precision agriculture for wasteland restoration, land remediation and leveling, slope land conversion, paddy field leveling, dry land leveling and other large areas land leveling. It can also be used for water conservancy, airport construction and large-scale stadium construction.

FLEETPRO[™] ENGINE OIL FILTERS

ALL FLEETPRO SPIN-ON TYPE FILTERS ARE:

%100 dry air leak tested
%100 camera control
Burst Pressure > 20 bar

All sealings are complied with CNH Industrial standards and tested for leaking.

Our end caps are galvanized and washed to ensure CNH Industrial cleanliness level.

We are using heat treated spring steel in our by-pass valves.

Eco welding process for the reduction of harmful elements' exhaust and using resources and energy effectively.

**We are using high efficiency,
Cellulose + PES media to ensure
your engine health and deal
with extreme conditions**

GUARANTEED QUALITY

We guarantee that our FLEETPRO filters are free of any material and manufacturing defects thereby they will maintain their performance parameters for their entire life, under to the intended use outlined by the manufacturer of a particular engine or vehicle.

CLEANLINESS

Superior cleanliness level with the washing unit and galvanized caps.

DURABILITY

FLEETPRO engine oil filters is made up of durable components and offer exceptional filtering capacity and efficiency.

FLEETPRO AIR FILTERS

Our **FLEETPRO** air filters are specially designed to perform and provide effective engine protection, in a wide range of challenging conditions **in all old or new type applications.**

HIGH EFFICIENCY

Specifically designed to perform across a wide range of CNHI off-road engine applications with %99.9 + efficiency

FLAME RETARDANT MEDIA

Filter medium resistant to the spread of flames.

GUARANTEED QUALITY

We guarantee that our **FLEETPRO** filters are free of any material and manufacturing defects thereby they will maintain their performance parameters for their entire life, under to the intended use outlined by the manufacturer of a particular engine or vehicle.

STABILISED PLEATS

Pleats are stabilized by a special ribbing and pleat lock system to prevent the adherence of adjacent pleats for a perfect airflow.

HOTMELT SPIRAL BEAD

Enables the pleated media to remain in place during usage and the process ensures uniform pleat distribution.

SPECIAL SEALING

We are pouring a high-performance sealing material for challenging conditions.

RIGID STRUCTURAL SUPPORT

Reinforced liners (outer or inner) for preventing the filter to get damage under extreme conditions.

FLEETPRO FUEL FILTERS

High-grade multi-layered filter media against particle and water separation even if you are using low-quality fuel

The multi-stage filter element for particle and water separation with the coalescence of water droplets

Sealings are designed for long life usage and durable for chemical abrasives under extreme conditions

Plastic parts are tested for chemical resistance, specially designed for biodiesel usage

Our end caps are galvanized and washed. Tested under extreme conditions for durability and tightness

GUARANTEED QUALITY

We guarantee that our filters are free of any material and manufacturing defects thereby they will maintain their performance parameters for their entire life, under to the intended use outlined by the manufacturer of a particular engine or vehicle.

Protection against fine particles and water droplets even for low-level fuel quality. Resistant for chemical abrasives.

CONTINUES OF FUEL SUPPLY

FLEETPRO fuel filter supports the continues of the fuel supply and ensures longer fuelsystem components life

BOOST YOUR PERFORMANCE

With high-efficiency filter element and water separation, you will get a significant increase in engine power

DURABILITY

FLEETPRO fuel filter is made up of durable components for chemical resistant, and designed for biodiesel usage

FLEETPRO

FLEETPRO

RUBBER PADS FOR EXCAVATOR TRACKS

(Bolt-on)

FLEETPRO Rubber Pads for Excavator Tracks increases the versatility and profitability of tracked excavators by allowing them to switch easily between on and off-road applications. If your customers are looking for ways to ensure less noise and vibration when operating their excavator or want better traction and less damage to surfaces then our Rubber Pads are an excellent solution.

The FLEETPRO Rubber Pads consists of a steel plate surrounded by a robust rubber-blend cushion, which together with the pad's optimized shape helps to reduce wear, as well as vibration and noise. The pads fit perfectly to the track shoe and provides full surface protection.

The FLEETPRO Rubber Pads can be easily removed and replaced, providing a cost and time-effective way of adapting the excavator for different environments.

A Winning Formula For Your Success

HYDRAULIC OIL

PRODUCT OFFERING

DESCRIPTION	SIZE	PART NO.
Premium Hydraulic Oil HM68 anti-wear MAT3529-C	20L	MAT 3529-C
Premium Hydraulic Oil HM100 anti-wear MAT3529-D	20L	MAT 3529-D
Premium Hydraulic Oil HM68	209L	MAT 3529-CD

PREMIUM HYDRAULIC OILS

Designed for maximum performance across a wide range of temperatures, CNH Industrial Premium Hydraulic Oils resist breakdown under heat or mechanical stress, maintain system efficiency and deliver outstanding protection in heavy-duty applications.

FAST FACTS

Lubricant technology continues to advance and CNH Industrial stays ahead of the industry with newly improved Premium Hydraulic Oils.

- CNH Industrial hydraulic oils pass the most demanding lab and field tests, performing above and beyond the industry standard.

FEATURES, BENEFIT, & PERFORMANCE

- ✓ Extends maintenance intervals by resisting thermal and chemical breakdown.
- ✓ Minimizes sludge formation and improves reliability and system cleanliness.
- ✓ Good stability in the presence of moisture—reducing the risk of corrosion and rusting, particularly in moist or humid environments.
- ✓ Helps enhance hydraulic system efficiency with excellent filterability, high performance water separation, air release and antifoam characteristics.

HM-68 ARE

Designed to Meet:

- Danfoss
- Kawasaki
- ISO 11158 (HM fluids)
- DIN 51524-2 (HLP type)
- ASTM D6158 (HM fluids)

- Eaton E-FDGN-TB002-E
- Fives (Cincinnati Machine) P-70
- Swedish standard SS 1554 34 AM
- Parker Denison (HF-0, HF-1, HF-2)
- Bosch Rexroth Fluid Rating RDE 90245

HM-100 IS

Designed to Meet:

- ISO 11158 (HM fluids)
- DIN 51524-2 (HLP type)
- ASTM D6158 (HM fluids)
- Eaton E-FDGN-TB002-E

COMPATIBILITY & MISCIBILITY

Hydraulic Component Compatibility

CNH Industrial Premium Hydraulic Oils are suitable for use in hydraulic systems with hydraulic components (pumps, motors, valves) of all major component suppliers.

Seal & Paint Compatibility

CNH Industrial Premium Hydraulic Oils are compatible with seal materials and paints normally specified for use with mineral oils.

- ✓ Helps system components last longer.
- ✓ Helps reduce the impact of contaminants on filter blocking, allowing for extended filter life and enhanced equipment protection.
- ✓ CNH Industrial Premium Hydraulic Oils are suitable for a wide range of hydraulic power applications found in manufacturing and industrial environments including mobile hydraulic power applications such as excavators and cranes, and marine applications.

ENGINE OIL

PRODUCT OFFERING

DESCRIPTION	SIZE	PART NO.
NO. 1 ENGINE OIL 15W-40 MAT 3622	5L	MAT 3507A
	20L	MAT 3507
	209L	MAT 3507B

FEATURES, BENEFIT, & PERFORMANCE

- ✓ MAT 3622 designations help differentiate our engine oils from the competition by exceeding the American Petroleum Institute (API) requirements. These specifications require proven performance in many key areas (deposit control, oxidation, corrosion, aeration, and shear stability), and it certifies that our oils have been formulated, tested, and approved by CNH Industrial engineers to meet the rigorous demands of CASE and Case IH machines.
- ✓ Demonstrated resistance to thermal breakdown under high temperatures and excellent cold weather starting.
- ✓ Our No. 1 Engine Oils are the only lubricants bench tested, field tested and approved by CNH Industrial engineers in severe lab conditions and under load in extreme field testing.

No. 1 ENGINE OIL 15W-40

MAT 3622 CNH Industrial specification

- Cummins CES 20078, 77, 76, 75, 72, 71
- API CI-4, CH-4 SL; ACEA E7, E5, E3; JASO DH-1
- Meets or exceeds performance level requirements of CAT ECF-2, ECF-1A

- ✓ Our MAT 3622 offers backwards compatibility for generations of old engines requiring API CI-4 or CH-4 diesel.
- ✓ Proven wear protection to maximize engine efficiency and help prolong engine life.

GEAR OIL

PRODUCT OFFERING

Hypoid Gear Oil SAE 80W-90 API GL-5	5L	MAT 3516-A
	20L	MAT 3516
Hypoid Gear Oil 85W-140 API GL-5	5L	MAT 3516-B

FEATURES, BENEFIT, & PERFORMANCE

HYPOID GEAR OIL EXTREME PRESSURE

Offers better overall protection for differentials and gear sets to increase performance under extreme pressures, and extends equipment lifetime.

These Hypoid Gear Oil formulas are designed to help prevent deposit formation and maximize oil drain intervals without compromising protection.

- ✓ High load capability, anti-wear and extreme pressure properties extend equipment life.
- ✓ Reduces maintenance costs under severe conditions.
- ✓ Thermal and oxidation stability extends seal life and increases service life of equipment and lubricant.

UTTO PREMIUM OIL

PRODUCT OFFERING

DESCRIPTION	SIZE	PART NO.
Universal Transmission Oil Premium MAT3525 API GL-4	20L	86556176
	209L	86556176B

FEATURES, BENEFIT, & PERFORMANCE

UNIVERSAL TRANSMISSION OIL - PREMIUM

Universal Transmission Oil Premium is a premium "universal tractor transmission oil" (UTTO) designed for use in transmissions, hydraulic systems, oil immersed brakes and other ancillary systems fitted to agricultural, construction and off-road equipment. Universal Transmission Oil Premium is recognized by leading agricultural and construction equipment manufacturers and suitable for use in most modern equipment.

- ✓ **Oil Immersed Brakes:** Special friction modifying additives are included in Universal Transmission oil Premium to ensure optimum performance of oil immersed brakes while minimizing brake noise. Universal Transmission oil Premium is recommended for most wet brake systems fitted to agricultural tractors and off-highway construction equipment.

- ✓ **Enhanced Protection:** Excellent anti-oxidation, shear stability, anti-wear, anti-corrosion and anti-foam characteristics result from the use of the latest additive technology leading to greater reliability and reduced downtime thus minimizing cost and maximizing utilization.

- ✓ **Operator Comfort:** The excellent low temperature fluidity of Universal Transmission oil Premium results in responsive hydraulic performance and smooth gearshift performance, from cold starts to maximum operating temperatures. Friction modifying additives help create smooth, noise-free operation of oil immersed brakes.

- ✓ **Hydraulic Systems:** Universal Transmission oil Premium is ideally suited for hydraulic systems of tractors and ancillary equipment. Universal Transmission oil Premium is formulated using specially selected additives and high quality base oils to provide good low temperature fluidity and wear protection.

Transaxle Oil

Premium Transaxle Oil 80W-140 MAT 3515-B API GL-4	20L	MAT3515

FEATURES, BENEFIT, & PERFORMANCE

PREMIUM TRANSAXLE OIL

Our top-grade Premium Transaxle Oil enables smooth, noise-free operation in equipment, especially those fitted with oil-immersed (wet) brakes like wheel loaders and tractor loader backhoes. This new, advanced formulation extends component life.

- ✓ Excellent low temperature properties allowing operation under cold ambient conditions.
- ✓ Minimizes formation of deposits on gears and brake discs.
- ✓ Available in two mineral oil viscosity grades.

HYTRANS OIL

PRODUCT OFFERING

DESCRIPTION	SIZE	PART NO.
Hy-Tran Premium Hydraulic MAT 3540	20L	MAT 3540
Transmission Oil	209L	MAT 3540 B

FEATURES, BENEFIT, & PERFORMANCE

HY-TRAN® PREMIUM

Designed for use in tractor transmissions, axles and hydraulic systems, Hy-Tran® Premium is a high-performance, zinc-free, anti-wear hydraulic transmission oil formulated to provide premium performance and protection for all generations of equipment – from legacy to CVTs.

- ✓ One set of fluids for all generations of new and legacy equipment.
- ✓ Redesigned for CASE/Case IH CVX/CVT transmissions – higher levels of shear tolerance, responsive performance, and the ability to maintain its properties under high pressures and tough applications.
- ✓ Multi-grade fluid maintains consistent power-transmitting qualities across a wide range of operating temperatures.
- ✓ Greater shear stability for improved performance under extreme conditions.
- ✓ Industry's highest level of water tolerance.
- ✓ Superior protection against corrosion and gear surface pitting.
- ✓ Non-zinc formula helps keep the system free of deposits and avoids the creation of corrosive by-products.

KEY TAKE-AWAYS

1. **Reduced Noise and Vibration:** Provides smoother shifting of clutches with less wear and minimizes brake chatter.
2. **Best-in-class Torque Transfer:** Provides more power to the ground with less slippage of clutches which promotes high braking capacity.
3. **Unrivalled Water Tolerance:** Unique ability to hold up to 1% of its volume in water helps prevent rust.
4. **Improved or Superior Oxidation Stability:** Less oxidation under heat prevents metal deposits and corrosion, extends component life and reduces downtime.
5. **Better Filterability:** Performs under extreme conditions with better flow and less filter plugging.
6. **Superior Shear Stability:** Provides advanced wear protection for transmissions and implement pumps by maintaining its viscosity when subjected to high temperatures and extreme pressure.
7. **Optimal Corrosion Protection:** Reliably extends component life by providing optimal protection against corrosion and pitting.

Seeing is Believing: Ours vs. Theirs

Water tolerance tests a fluid's stability when mixed with 1% water for 7 days. Hy-Tran® Premium remains clear while the competition breaks down.

Hy-Tran® Premium: Hy-Tran® Premium has the unique ability to hold up to 1% of its volume in water without any harmful effects like additive fallout.

Competitor Fluid: Typical tractor fluids experience problems at 0.5% or less of their volume in water.

- ✓ Redesigned for CASE/Case IH CVX/CVT transmissions – higher levels of shear tolerance, responsive performance, and the ability to maintain its properties under high pressures and tough applications.
- ✓ Multi-grade fluid maintains consistent power-transmitting qualities across a wide range of operating temperatures.
- ✓ Greater shear stability for improved performance under extreme conditions.
- ✓ Industry's highest level of water tolerance.
- ✓ Superior protection against corrosion and gear surface pitting.
- ✓ Non-zinc formula helps keep the system free of deposits and avoids the creation of corrosive by-products.

KEY TAKE-AWAYS

1. **Reduced Noise and Vibration:** Provides smoother shifting of clutches with less wear and minimizes brake chatter.
2. **Best-in-class Torque Transfer:** Provides more power to the ground with less slippage of clutches which promotes high braking capacity.
3. **Unrivalled Water Tolerance:** Unique ability to hold up to 1% of its volume in water helps prevent rust.
4. **Improved or Superior Oxidation Stability:** Less oxidation under heat prevents metal deposits and corrosion, extends component life and reduces downtime.
5. **Better Filterability:** Performs under extreme conditions with better flow and less filter plugging.
6. **Superior Shear Stability:** Provides advanced wear protection for transmissions and implement pumps by maintaining its viscosity when subjected to high temperatures and extreme pressure.
7. **Optimal Corrosion Protection:** Reliably extends component life by providing optimal protection against corrosion and pitting.

Seeing is Believing: Ours vs. Theirs

Water tolerance tests a fluid's stability when mixed with 1% water for 7 days. Hy-Tran® Premium remains clear while the competition breaks down.

Hy-Tran® Premium: Hy-Tran® Premium has the unique ability to hold up to 1% of its volume in water without any harmful effects like additive fallout.

Competitor Fluid: Typical tractor fluids experience problems at 0.5% or less of their volume in water.
